

VETERAN COINS

WELCOME

Welcome to the **Veteran Coins Brochure**, here, you'll find that this document answers a lot of questions and, along with showcasing many of my fine products gives you some insight into what I do and why I do it.

Please, if you have any questions or wish to purchase any of the fine products found in this brochure just find me on Facebook at VC-chat.ca, veterancoins.ca or follow the Contact info at the end of this brochure.

ABOUT

After leaving the military I, like many veterans, realized that my years there were some of the best of my life and looked for a way to remember them. Sure, I had the old t shirts, medals and reunions as well as a hefty friends list on Facebook but, like many I sought to put something more material and everyday carry to keep me in touch with my service life.

I remember my Airborne Coin and the pride that filled me when I showed it to others and, as I came across more coins - both Regimental, Ship and Unit/Base orientated I realized what a true connection people find with having something like this to hold and feel – even carry around and show others.

Sure, I was proud that I jumped out of airplanes but to tell the truth, I was more proud to have been a member of the military period. As I got older and more affluent I wanted the shwag that came with being part of something greater than myself and so, began to collect rings hats and ... coins.

I really liked the coins as they felt heavy and strong and, you could pull them out and fidget with them but, the ones that I came across were all missing something as they seemed to come off as just cookie cutter items and all were the exact same – pretty much a bit of color and maybe a ridge here and there.

I wanted to make something that would be personal and have more value to the holder as it incorporated good old fashioned quality but, the problem was, you cant just make one, you have to make a hundred or more of them. So, to get a coin I personally wanted I sat down and, using my rudimentary graphics skills designed something that I thought suited me. I put it up on a Veteran's Facebook page and surprisingly, got a lot of interest.

I found a coin maker and worked with them to make the design and then took payments from a few fans to help get enough to warrant going forward making them.

The rest is history and, mission creep has taken over so much so that I'm now on my 8th edition of the Veteran series and seventh pin, millionth decal and sell stuff to compliment them such as stands, boxes, engraved bullets and cases.

I have much to be thankful for but no more so than my customers and supporters who make this all worthwhile and provide the support when I question my own purpose going ahead with some of this.

A portion of every purchase goes to the United Federation of Canadian Veterans and I also support Lures For Vets, both of whom are streamlined to help Veterans where the rubber meets the road in the here and now. While I'm still underwater with this enterprise expect that I will, in the near future be able to do more for other charitable Veteran outfits.

I've strived to provide you with high quality keepsakes worth treasuring for the rest of your life and, believe that all of the coins and merchandise I offer does just that.

"Drew. I got my coin and pin in the mail today. I am beyond pleased with the quality of this. Thanks for the memories Brother. The quality of these things is off the hook Drew. Very nicely done" ~ TP

NOTES

The prices, unless stated otherwise, include engraving and, are for the individual items on their own with no other combination or group deal.

Please note that from time to time there will be sales that combine two or more products and, will substantially lower the prices as combined shipping costs can help lower prices. Ergo, in effect, this brochure is but a guideline only.

Be sure to check regularly on the Face Book page for the latest deals and the **Discount Bin** found at the end of this doc and at www.veterancoins.ca

All my coins are larger, antique looking and heavier than pretty much all other challenge coins, your Veteran Coin will have a warm and quality heft to it when held in the hand and, a quality sound when firmly placed on a bar to show it off.

Unless specified, the laser engraving is included in the price so it is necessary for orders to be pre-paid.

The engraving alone, be it done at the factory or, with my craftsman here is worth more than the price of the coin itself and, makes this an excellent deal for a memento that you or the recipient will cherish forever.

"Drew these coins are unbelievably beautiful - great job." ~ DL

COINS

There's two types of coins that I sell – registered and unregistered or, to be precise – those that are serialized and registered in my registry and those that are not. Beside each coin, if registered if is designated here and, if not mentioned you coin will have a three or four digit number on it if registered and nothing it not.

Certainly this is not a legal registry however it is a start so that those who might take this over will have a record as to who has a coin as we move ahead over time and have new Veterans join us.

One commonality is that all coins come personalized providing the member has provided the necessary information. While nothing can replace a regimental coin I wanted to make something that would unite us and so opted to make a good veteran coin.

I wanted to make something that would be treasured which meant it had to have quality and some good old-fashioned quality.

A veteran is anybody who for a few brief moments put their life on the line for their country whilst wearing a uniform honoring those veterans is what this is all about – allowing them to honor themselves as is often the only case
We can honor a veteran, allow a veteran to honor themselves, help a veteran to honor those who helped him or her

The coin however had two sides so I figured why not make it engravable so I could put my name on it and so the old mission creep came together and I figured I my name there why not put my unit and so we have what we have.

A Veteran coin with a big ass space to put your unit on the back and another big space to put your name proudly to show you served!

If this goes the route which I hope it will where the Federal Government steps up to the plate to do what they should and provide it's heros and veterans a material memento instead of a shitty piece of paper with a fake signature on it then possibly they will have a parade on the Hill twice a year where the PM or MND will present these to the Veterans present and if not, local MPs can do so at cenotaphs the country over on November 11.

At that point, they can take over the registry which can provide a snap shot of the Veterans who stood up to be counted and they can begin to honor those who did not but deserve to be.

“Drew, Received my new Coin and Pin. I cannot say enough to thank you for these. The Coin is amazing!!! Wait till I show my friends.” ~ BL

OLD STYLE TRADITIONAL (REGISTERED)

\$35

This was the first coin I had made and at two inches, 3 dimensional and 3.5 mm thick. The high features popped out nicely and it immediately garnered a lot of attention - and sales.

The front of the Traditional centers around the combined forces badge superimposed on a Canadian Flag where, arced across the top are the words "CANADIAN ARMED FORCES" and below, is the vow "ON GUARD FOR THEE."

Across the logo in large letters is the word "VETERAN" making the purpose of the coin unmistakable and below there is a blank area for your years of service to be engraved in.

On the back, arced across the top is the Latin phrase "HOC DEFENDIMUS" (Latin for "THIS, WE DEFEND" and across the bottom is "SEMPER PARATUS" meaning 'ALWAYS READY.'

Your products mean a lot. You respect our veterans and provide unique ways of marking that as significant. Thank you. I wish your coins were distributed by Parks Canada for the many veterans who visit our battlefield cemeteries in Europe.

TRADITIONAL (Registered)

THE TRADITIONAL

86 GRAMS

6.2 MM THICK

2 INCH DIAMETER

\$60 ENGRAVED AND SHIPPED

\$60

After I made a few coins I thought I would try something a bit different yet again so, decided to up the thickness and add in a bit of 'roughing up' to give the newer coins a medieval look.

This new Traditional is the second biggest coin I've made and is modelled after the first and smaller Traditional Coin.

It used to be known as the 'Traditional 2.0' as the original Traditional is now just about sold out so, we dropped the 2.0 and now refer to it as the 'TRADITIONAL.'

The main differences between the two were the thickness of the coins and the diamond edging. The Original Traditional was 3.5 mm thick whereas the newer model is a whopping 6.2 and almost double the weight coming in at 76 grams and the feel, look and sound when dropped or moved is music to the ears.

This one also is the first to make use of the artificial pitting to give the coin that beat up look where, like us vets, it weathers storms and adversity like a champ and, gives it the character we love.

A blank area for your unit, corps or regiment is roughly in the center and below that is room for your Rank, Name and Initials to be engraved. At the bottom is a small space for the coin serial number. It is a rustic yet beautiful coin with an antique gold plated finish enhanced by a 3D molded front and back giving it a warm qualify look, feel as well as a confident weight & heft when held in the hand.

***"Hey drew...received the coins Thursday...freaking awesome...
love them....thx...ready aye ready"***

SPECIAL SERVICE FORCE HQ & SIG SQN COIN

\$50

Being Ex Signals and SSF myself, a few of my former colleagues asked me to make a coin for the group to which I happily did.

This is the result.

As with all newer coins these are 6.2 mm thick, 2 inches in diameter, have reeded and roped edging and pitting to give it that beat up look.

And while I did that, I began to get requests from other SSF units for an SSF coin so, made a more generic version of the above.

"It is stunning, it's the first coin with my name on it so I'm a little excited."

SSF COIN (Registered)

\$50

2 inches, 3 Dimensional gold plated zinc struck SSF Coin.

Reeded edge with 6.4 thickness on the edge and 8.4 in the center.

Comes custom engraved and registered to the Veteran Coin SSF archive.

"I will have it on my mantel. Over time those are some of my best memories." ~ RT

FRENCH COIN (Registered)

\$35

To purchase send a message to VC-chat.ca or talk to Admin at veterancoins.ca

Custom Engraved 100% French Veteran Coin.

I was asked to make a bilingual coin and I was all aboard from the git go. To conduct my due diligence I looked at everything I have that is bilingual to give me some ideas. Instructions, ID cards, credit cards and even a couple coins I have. I quickly noted that a few things miffed me about the exercise.

They being one, having two languages is distracting. I'm English so why would I want to wade through a bunch of French words to get to the meat.

Two, French is a beautiful language, a romantic one whereas English is more practical and down to earth so mixing them is almost sacrilege.

Three, if I am English, why would I want something extremely personal to me to be written in another language and, if I were French, why carry around a coin that is English.

And fourth, the most important reason - aesthetics. I'm trying to make a coin that even though it has few words and symbols, conveys a powerful yet simple message that the bearer of the coin is proud, loyal, strong and respectful.

In order for those values to be presented unencumbered with a minimalist look, it has to be used hence, the simplicity of all Veteran Coins - all in one language so, I was compelled to go to the extra expense of making an entirely new coin and this is it.

Other than the language, this has a few differences they being the logo is no longer the Cornflake but rather shields used in place of the maple leaves - half of which have the Fleur Des Lis on them with the top, instead of a Crown, has a large maple leaf with a Fleur Des Lis at it's center complete with crossed swords.

With the exception of the Cornwallis piece, these are serialized with the buyer's name verified to the best of our ability and kept on file.

***"I'm pleased to be the recipient of the coin and a pin. Thanks Drew!
These are incredible, guys." ~ GH***

NON TRADITIONAL COIN (Registered)

\$35

The Non Traditional is the precursor to the Bellator with 3 dimensional struck Zinc with an antique gold finish these still maintain their robust and timely look.

Upon the unveiling of the French Coin I was messaged by quite a few English Veterans asking if I could make an English version as they liked the idea of a coin without the Crown of the Cornflake.

Thus the NON TRADITIONAL coin was forged. Same coin but in English.

At one half of the price as the more contemporary coins I offer these are an extremely affordable item to place in a shadowbox.

***"I received mine last week and I love them!! Gonna look fantastic
In a shadow box with all my other medals and such!! "***

BELLATOR COIN (Registered)

\$60

BELLATOR - Latin for 'I, WARRIOR'

3 dimensional, 2 inches in diameter and 6.4 millimetres thick on the reeded edge and 8.4 in the centre it's an impressive piece of memorabilia.

These come custom engraved or, if you prefer to find an engraver of your own I will knock 10% off the price.

The Latin words 'EGO BELLATOR' on the scroll in English or French mean "I, WARRIOR" and, this magnificent coin is truly for the WARRIOR.

This is the first big coin I made. It is the same dimension as the others at 2 inches but, the thickness is 6.2 mm giving it a unique heft and quality feel and, just like how some say you can tell a high quality car by the way the door sounds when closed, the sound made by this coin when snapped, dropped or placed on a hard surface is definitely more resounding than the thin 'click' that other coins make.

When I saw and held the first VETERAN COIN I was impressed and thought that it was certainly the best coin I had and that nothing I could have made would out do it.

Upon receiving this Bellator and holding it I knew that this was something surpassed those first Veteran Coins as everybody who has received them to date agrees.

"No better way to commemorate my career in my eyes."

REMEMBRANCE COIN (Non Registered)

\$60

To me this is what Veteran Coins is all about. Remembrance.

These coins come with the words REMEMBER displayed prominently on the face and AETERNUM, Latin for forever on the reverse with the words 'Lest we forget,' 'They shall not grow old' and 'Age shall not weary them' are kept on both sides.

There are two types – those which are pre engraved with a poem and those which are custom engraved with the name or names of those whom you wish to remember or, even your own name to leave your loved ones when you depart on tours or more permanently.

2 inches in diameter, zinc struck 3-dimensional coin that is 6.4 millimetres thick on the edge and over 8 milometers thick in the centre.

There are also two distinct looks to these coins, black nickel which takes on an almost wet look as it's deep penetrating reflective texture changes hue in different light conditions to make it one of the most unique items Veteran Coin has to offer.

The other Remembrance coin is the antique silver which imitates pewter.

At this time, it is not possible to custom engrave the antique silver as they are all pre engraved with the words 'Upon these ancient battlefields on angels wings they fly'

Designed to remember those who sacrificed everything and whom you hold dear. Truly a memento for the ages!

While for us Veterans, every day is Remembrance Day this time of year gives us the opportunity to help civilians focus their thoughts on the sacrifices of those who paid the ultimate price to keep our nation strong, free and along with it, able to hold our head high on the world stages for helping others.

For us, it's a bit more personal than that and whilst 'Lest We Forget' goes without saying, last year I was asked by more than a few Veterans to engrave a coin for them to honour a lost comrade or buddy which I of course did.

I felt that a more specific coin was needed and so the REMEMBRANCE COIN was born. This allows the Veteran to have me engrave the details of the fallen soldiers Rank, name and regiment or, like many have done, simply put their own name on to leaves to their family when their watch is over.

That was last year and sadly, it would not have been ready for November 11 so instead, I made an engravable REMEMBRANCE PIN which can have two names or, two mottos such as 'They shall grow not old' or 'Age shall not weary them.'

As soon as I brought this to the attention of my group whereupon I was asked to provide more space for more names so, came up with the five engraving bar ANCILLARY PIN to go with it.

The REMEMBRANCE COINS are like nothing you've seen before in that it's texture and finish are transitional depending on the lighting as it has a 3 dimensional black nickel lustre that is either pitch black or, in other lighting conditions, it takes on a deep metallic sheen that shines with a mirror like finish – it has to be seen to fully appreciate it.

They're made of die struck zinc, 3 dimensional and 2 inches in diameter. They have a rugged heft to them as they are 6.3 mm thick at the edge and 8.4 in the centre and weighs in at 82 grams.

It comes with a black case and a 1 ½ inch 3 dimensional non engravable matching pin with dual locking clutches and costs \$70 including engraving, pin and case.

If you're interested in getting some of this stuff send me a PM or goto VETERANCOINS.CA and hit me up there.

A portion of all sales goes to support United Federation of Canadian Veterans, Lures for Vets and Support Vets App.

"Thank you for providing a very honouring way to remember our fallen Brothers and Sisters in Arms & I thank you for donating a portion of your proceeds to Lures For Vets

CORNWALLIS COIN (Non Registered)

\$35

Not many of these left and they won't be continued so, if you are interested best get them now.

\$30 - 2 inches of pure unadulterated 3D discipline and bad memories.

Comes custom engraved with your name rank and course number.

Made from gold plated zinc in a 2" and 3.5 mm thick coin, this has cross-cut diamond edging on front as well as back and, reeded rim edging on the side which is the edging that legal tender uses.

The Cornwallis Coin commemorates all the good times many of us old geezers had at this institute for higher enhanced learning.

"Drew, got my coin and pin in the mail yesterday. They both look amazing, very professional and a true treasure. Thank you."

OLD STYLE TRADITIONAL COIN (Registered)

\$35

Like the Cornwallis coin not many of these left either and I'm willing to part with these at a severe discount which makes them perfect for those wishing to complete a shadow box or other project.

A blast from the past and the first coin Veteran Coins has developed.

3.5 milometers thick on the edges and 3 dimensional with antique gold plating.

Comes custom engraved.

"I just got it, I'm beyond happy bro thank you soooo much! Yes haha im examining every aspect of them the weight of the coin is amazing Bro it has such a presence i will show it the 80 year old vet that works with me tomorrow. Its perfect to display the coin its well made i really like it ~ JA

CUSTOM DISPLAY BOXES

Being fifth generation military, a couple years back I decided that as a perk of my position here that I would provide my extended family some military memorabilia to honour our own.

So, I commissioned Aaron and his team to make something fitting to hold my family's heritage and what a phenomenal job he did!

These are all custom jobs so if interested give me a PM at vc-chat.ca and we'll get you sorted out.

I received my coin and pin. It was well worth the wait and I will cherish them for as long as I have left. ~ RG

PINS

Yes I have lots of pins. In fact so many that I had no idea of how big a company I had until I took inventory on my pin collection.

REMEMBRANCE PINS

\$35

These Remembrance pins come custom engraved with two bars.

The intent is to provide a wearable pin with the name of the fallen warrior's name on it with a second bar to provide for a short message to personalize it with.

The way that this came about was a lot of people were buying a Veteran Coin for a former soldier who had passed away or, a husband or daughter who were deployed so, I thought that a dedicated coin would be the answer and began working on that (and actually have one which I will reveal in a month or so.

In the meantime, I came up with this idea to make an engravable pin which can be worn to remember an individual or two. They are 2 inches high and an inch and a half wide. So, will fit nice on a blazer. Or leather biker jacket lol.

“Drew just received my coin and pins. You Sir have done a fantastic job. I am completely Pleased with the coin and Pins. The weight was a nice surprise. Thank you.” ~ JP

ANCILLARY PIN

\$25

I received a message from a customer asking if I had a way to have twenty names put on a pin. I said I didn't and played with the idea of making a chain of engraving bars however, my engraver said it would be a pain in the ass dealing with dozens of the little things and then

trying to fix them onto the pin like a 'Barrel of Monkeys' as they came off whilst on parade so, I gave up on the idea.

A couple days later it came to me and this is the result, five of the same size bars that can work perfectly with the Remembrance Pin or the Veteran Pin, depending on how many names you need - remembering of course that you can add in phrases of "Lest We Forget" etc.

REMEMBRANCE AND ANCILLARY PIN

\$55

The two pins together seems a natural fit so they can be sold together as shown above.

And it works well with the Veteran Pin acting as a Remembrance Pin sans engraving bar as well if the numbers add up for you.

"Drew these coins are unbelievably beautiful great job." ~ DL

VETERAN AND ANCILLARY PIN COMBO

* coin not included

\$35

This adds a bit of versatility for space and numbers as those two factors can be a problem. One of my customers had three names, one too many for the Remembrance Pin and two too little for the ancillary and, not enough room for both anyhow.

So he came up with this solution – to use the smaller Veteran Pin as the head and the Ancillary Pin as the info and simply use two of the bars not for names but rather mottos such as ‘REMEMBER’ & ‘LEST WE FORGET.’

If that isn't enough then there is an ancillary pin with five bars for \$25 which also comes custom engraved.

The REMEMBRANCE PINS are also 3 dimensional and made of die stamped zinc with an antique silver finish. They're 1 ½ inches wide and 2 inches high and have two engraving bars which can comfortably accept 20 characters for names or a motto.

These are \$35 engraved. The ANCILLARY PIN is 1 inch wide and 1 ½ inch high and made of the same high quality material and are \$25 engraved.

***“Hey there Drew! Got my SSF pin yesterday, and it's outstanding!
Thank you for what you do. AATW” ~ WC***

CUSTOM ENGRAVED SSF PIN

\$25.00

Were you a member of the SSF and want to commemorate your time there?

These are custom engraved pins - just let me know what you want the engraving bar to say be it your name and rank, unit, troop or call sign and it's yours!

I decided to try out making a coin/pin set and so, the SSF pin set was born and, the result was phenomenal.

The 3D work was exquisite and just pushes the images out of the pin and engraving allows sub units of the Brigade to be displayed making the experience more personal for the holder.

These won't last forever as I will be moving onto other projects for now and, have run out of a couple of the units so, some requests will have to be custom engraved which adds on and extra \$5 or so but, for the most part there are at least a couple of each and some such as the HQ SIGS, Airborne and Svc Bn have about ten or so.

"Got my coins today. Love them!!" ~ MM

SSF BLAZER PIN

\$15

A durable pin perfect to top off a biker vest or jacket. The dual locking clutches hold it in place even as the wind tries to take it off.

For those who want something a little more low key I also have the traditional SSF Pins that are about 2/3 the size and are single locking clutch – perfect for a lapel on a blazer.

***“Hey there Drew! Got my SSF pin yesterday, and it's outstanding!
Thank you for what you do. AATW” ~ WC***

RANK PINS

\$25

Custom engraved and 3 Dimensional. Got this idea when I saw how many people wanted to have rank badges to put in their shadow boxes with the various postings they had throughout their careers and thought that it would be a good idea to combine the two and here we go.

An interesting modification came from one of my customers who requested something for his spouse to be honoured by using a rank pin for this purpose

Which begat more

“I just received my Rank Pin today looks great. Good job. “

“Got my coins today. Love them!!” ~ MM

VETERAN PIN

Right around the time I made the Bellator I figured that a great looking coin like the Bellator should have a great looking pin to go with it and so came up with this little guy.

1 inch by 1 inch and fine 3 dimensional detail.

"I received my coin and pin. It was well worth the wait and I will cherish them for as long as I have left."

\$15 & \$12

Blazer (dual locking clutch) or lapel (single locking clutch) I have them both!

AIRBORNE TABS

\$15

VETERAN TABS

2 inches and come in five colours - white, gray, yellow, brown and blue.

"Drew these coins are unbelievably beautiful great job." ~ DL

LURES FOR VETS

Clarance Gear over at Lures For Vets, a volunteer organization that helps Veterans out by taking them on peaceful sojourns with nature came up with this pin to hand out to those who take a trip with his organization - and, those who support same.

Together we finessed it and, in a week or two the above depiction of the item showing the various 3D layers should be here and available for shipping.

High quality and, if I do say so myself, the L4Vs logo is daim cool and lively, this is going to look good on my blazer alongside the other programs I support.

"I'm pleased to be the recipient of the coin and a pin. Thanks Drew! These are incredible, guys." ~ GH

COIN AND PIN BOXES

I seriously didn't want to go into the wooden box business and, don't make any money at this particular part of the business but, I also wanted to be able to offer a customized accoutrement that provide a quality backdrop for my quality coins.

These puppies do just that. Oak or hardwood with the name of the coin bearer engraved on the front provide a great setting for a treasured keepsake unlike anything else.

"I feel proud when I see that box and coin... It's the first thing people notice when they're in my house. I'm ordering one for everyone of my boys and gals that retires...I think they say a lot and they're beautiful pieces of work. In fact, I care more about these than my shadow box."

TWO PIN BOX WITH RECESSED HINGES

These are my premier coin holders made from oak or hardwood, recessed hinges and custom engraved.

They come with two antique gold veteran pins with double clutched locking clasps to make a high quality display module for your Veteran Coin.

\$75

You have the coin but now need a fitting place to display and store it.

There are three choices for a quality handmade oak cut out box - one with the coin itself and the other two complete with two veteran pins to frame your treasure to make it not only a storage unit but a display box as well.

All come custom engraved.

"No better way to commemorate my career in my eyes."

THE PRESENTER

\$50

These handmade little guys are just the thing if you have a Veteran Coin to present to a deserving person.

If you are intent about underlining your presentation with 100% class this is the way.

Unimposing yet elegant they underline the quality and effort that has gone into all the products at Veteran Coins.

Made from oak and custom engraved with the members name these will ensure that the gift will never be forgotten.

“Drew. I got my coin and pin in the mail today. I am beyond pleased with the quality of this. Thanks for the memories Brother. The quality of these things is off the hook Drew. Very nicely done!” ~ TP

TWO PIN BOX FROM COLD WAR WOODWORKING

\$55

"It is stunning, it's the first coin with my name on it so i'm a little excited"

PIN BOXES

"I have purchased several coins to give to my military buddies. I am sure they will appreciate them. These coins are impressive and the graphics are very well defined. The fact the these coins are numbered make them special. I think these are the best coin for the Canadian Veteran as they are designed by a CF veteran." ~ AD

STANDS

\$15

These little guys add a bit of warmth to the display scene without the cost associated with a full blown presentation box. Small and lightweight they look good and fit the larger coins that Veteran Coins is producing nowadays.

"They came out amazing thanks Drew Bedson. Pins are in my shadow box."

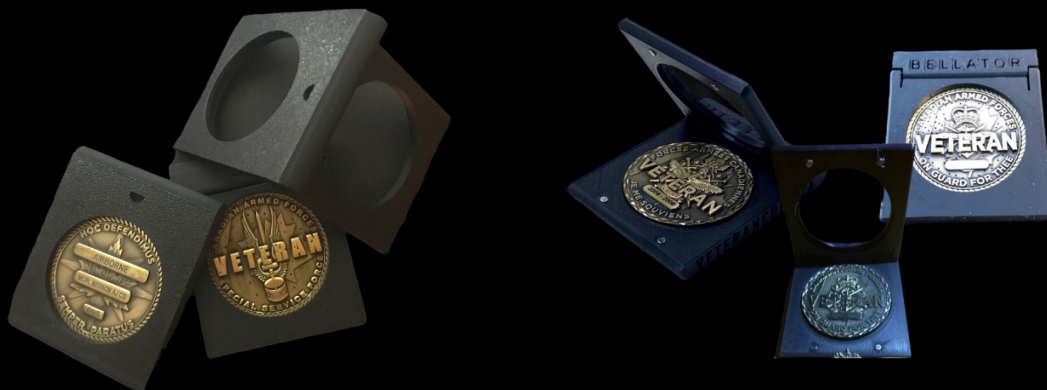

COIN CASES

COIN CASE

\$20

These little guys provide a dignified way to carry your Veteran Coin around with you and also acts as a display showcase.

I love these things as they're small enough to fit into a pocket, secure with dual magnetic clasps, functional enough to keep the heavy coin from rolling around wearing a hole in your pocket and, acts as a display case for both sides of the coin as the back is also open and, it even has the ability to hang itself on the wall like a picture!

“Good evening. I forgot to tell you, my wife was teared up when I showed her the coin and pin.”

AIRBORNE COIN CASE

This case has been specifically built around the legendary AIRBORNE COIN so much so that the metal ring and the resin 3D printed case have been heated so that when they cooled they shrunk to the actual coin used to provide the specs for this unit.

\$35 and includes an engraved set of wings as well as a stand to display your priceless heirloom. Name or coin number engraving plate include with engraving of your specs optional at a small extra cost.

These cases can also be found with Mi Leo and Armyguygraphics

STANDS

\$30 includes bracket and shoulder badges & C3D printed stands come in three different colours - black, silver and blue.

These are designed to be coin stands or, to accept the installation of a bracket for bullets, coins, pins or a glorious infusion of everything all at once!

BULLETS

- Note that VETERAN COINS has fabricated the dummy rounds seen here so all can be used as a cremation urn to allow for those we leave behind to keep us with them if they so desire.

Please be sure to mention that you wish for this option to be used so the proper sealant is used when sealed so the units can, if necessary be opened again. If you don't specify this wish the seal will be for all intents and purposes permanent.

I have a few sizes of rounds to use for engraving, among them are the four pictured below, note that all explosive material has been removed and replaced with inert sterile sand and plugged with a threaded bolt in the end.

ENGRAVED 50 BMG BULLETS

5 ¼ inches long (14.5 cm)

Show the world you're military with an authentic engraved 50 calibre round.

These units provide a dual service in being part of a showcase for your military service they also can be emptied of the inert material and replace by the ashes of the Veteran to provide a small urn to ensure he or she remains with the family for eternity.

Please note that the examples depicted include stands, brackets, badges, smaller munitions all which are not included with the 50 Cal and must be purchased separately.

If interested contact Admin at vc-chat.ca

ENGRAVED 338 LAPUA BULLETS

ENGRAVED 300 WIN MAG BULLETS

ENGRAVED 7.62 BULLETS

COMPLETE PACKAGES

These are combinations of everything you have seen so far but, combined in an artistic and intentional way according to my thoughts as to what they might most advantageously take to be a more perfect display for a veteran both economical and in their completeness and simplicity.

STICKERS & WINDOW DECALS

1 FOOT WIDE VETERAN TAB

You want the competition to know who you are then one of these is the way to go.

Made out of the same reflective material they use on commercial trailers these foot wide VETERAN tabs lets the world know who they're messing with.

\$30

These suckers will definitely make sure nobody tailgates your after dark.

Made from the same reflective material used on semi trailers and safety vests the light kicks back to make sure that everybody knows you're there and, you're a 'daim' Veteran to boot.

Members and return customers get this for \$30 and supplies are limited so, send me a PM or get hold of me at vc-chat.ca

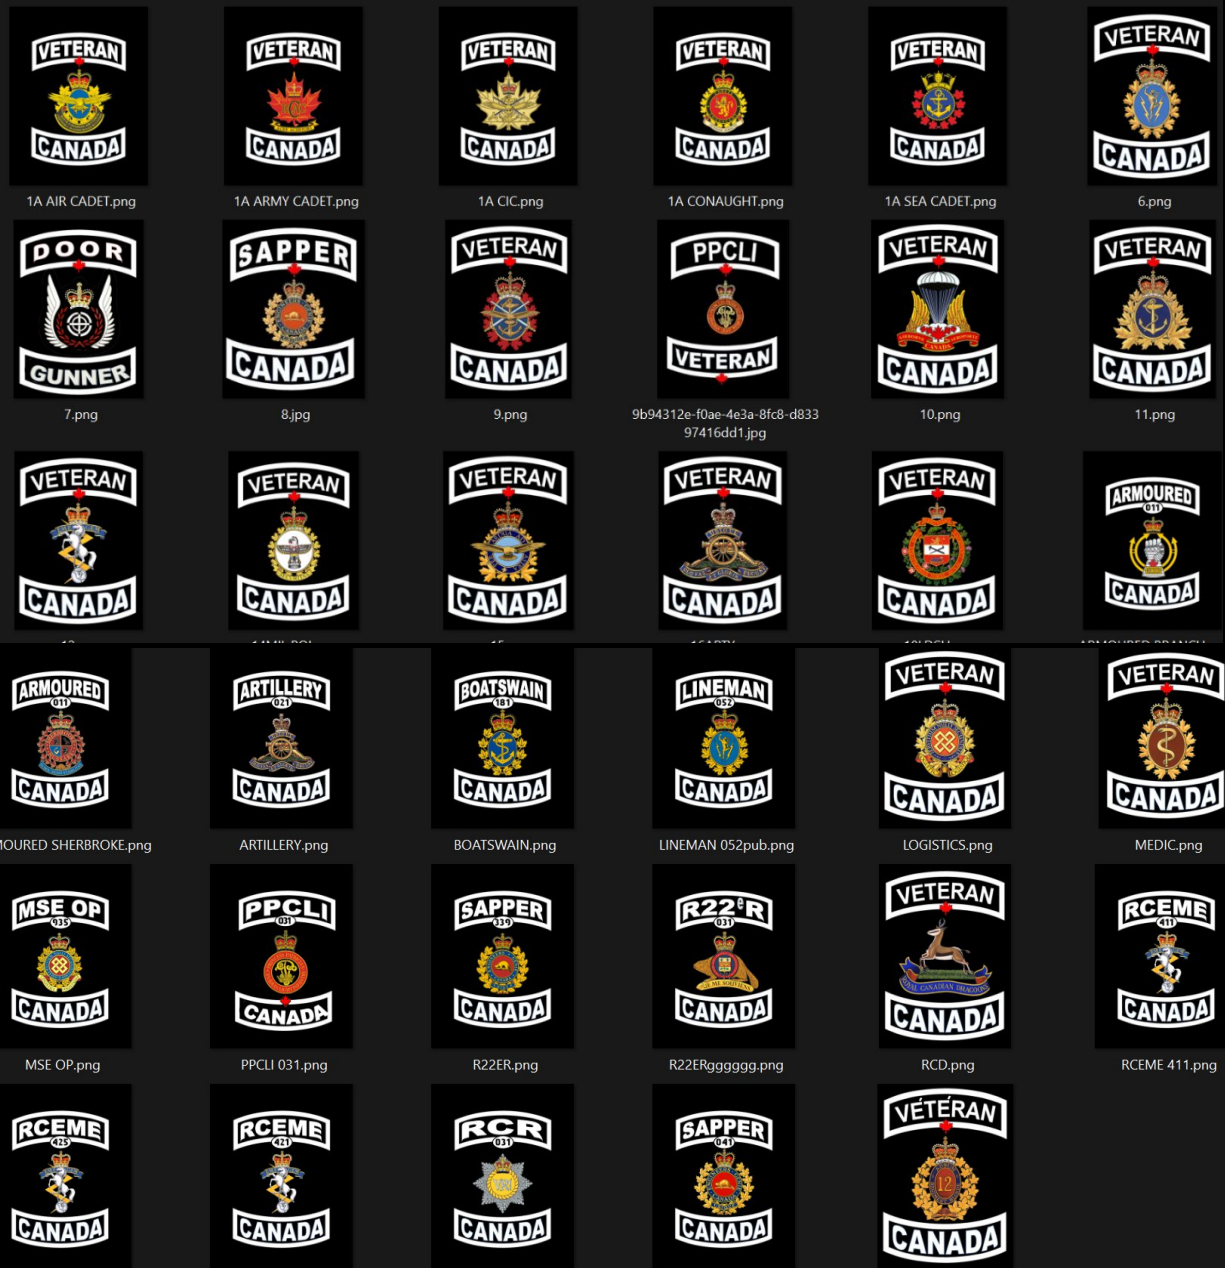

CUT VINYL WINDOW ROCKERS AND DECALS

These rockers are high quality & weather proof & made with 9 year vinyl to give you a ton of years on your vehicle to show your pride!

While I may not be able to locate all of the official centre badges to accompany your rockers I can certainly help you figure out how to find them and, help direct you to sources to make your rocker sets complete as per the image examples shown here.

4" - \$30

6" - \$40

9" - \$50

12" - \$60

Be aware that the measurements are the width of the rockers but with the image you provide or direct me to, height will be about one and a half times the width so please, measure the space you want to fill prior to ordering.

Also, while supplies last a Gomake decal applicator is included with each order (value \$5)

Nobody does it with the panache that Veteran Coins does.

To order DM Admin on Facebook.

WINDOW DECALS & STICKERS

Sure they're stickers but, not just any stickers.

They're Veteran Coins High Quality, kick ass proclamations of veteran life and pathos Stickers and, range from unit designations to unit degradation (those are to stick on other units not your own FFS)

These are witty, fun, proud and personal.

They come in the form of 3 by 4 inch place stickers or larger bumper stickers - your choice.

All made with the usual high quality weatherproof 9 year vinyl that Veteran Coins provides for your stuff.

Shipping not included

All stickers are made with weather resistant high quality 9 year vinyl

NOVELTY ITEMS

VEHICLE BADGES

\$30 per pair

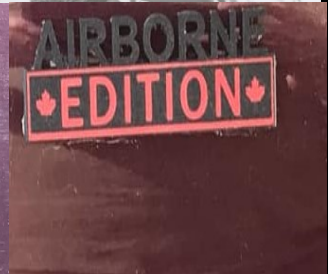

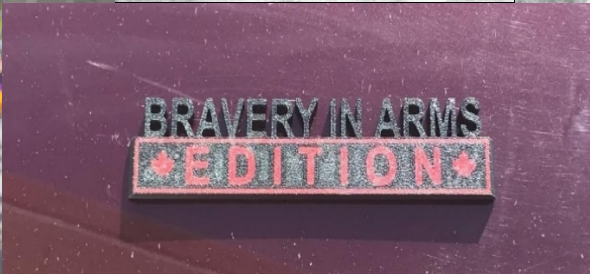

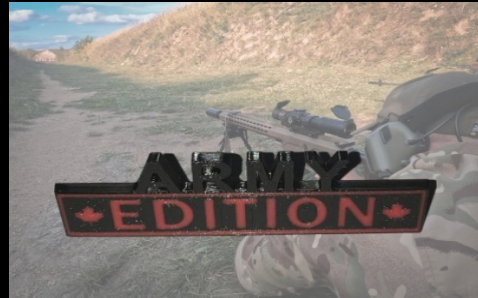

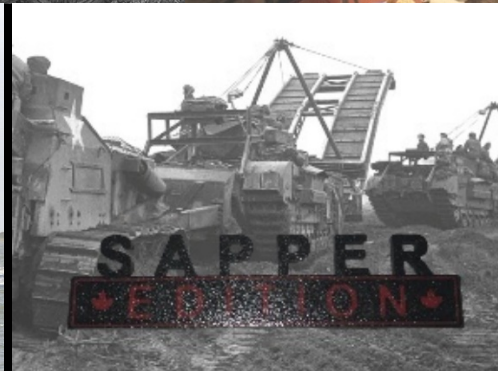

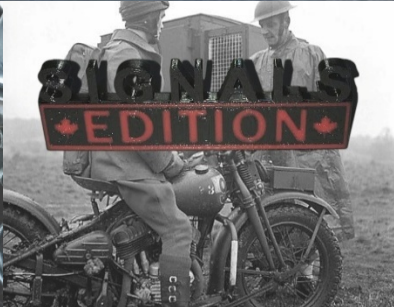

Stop being a walking advertisement for auto dealerships and put your proud military history on display instead.

These vehicle badges measure about an inch by four to six inches long and you simply take of the old dealer badge and put your on in it's place.

I can also customize and make larger tailgate versions for a bit extra.

To purchase send a message to VC-chat.ca or talk to Admin at veterancoins.ca

KEY CHAINS

A\$\$HOLE KEY CHAIN

\$15

We all know somebody who deserves one or two or more.

I thought that this fun gag key chain could appeal to many of our more jovial brothers and sisters and, the numbers have been pretty encouraging.

“If my heart could speak, you would know how much we appreciate what you have gifted. Thank you for supporting our veterans of yesterday and today. If only all veterans were treated with your high caliber of thoughtfulness and respect.”

BRASS KEY BULLET CHAINS

BULLET KEY CHAINS

Custom engraved and filled with inert sterilized sand to provide an authentic weight.

These items are definite conversation pieces and, underline your status as a warrior and veteran.

As well, they can be used along with our bracket and other memorabilia to complete your message and display your career.

As with our other munition containers, these bullets are capable of sealing up cremated remains to provide a focus point for family memories.

- Prices are with one side engraved. For both sides it is extra depending on design
- \$55 - 50 BMG
\$45 - 338 LAPUA
\$30 - 300 WINMAG
\$25 - 7.62

LEATHER TAB KEY CHAINS

These are 2 inch, genuine leather key tags with metal badges on both sides giving them a rugged, heavy and warm physical presence.

\$35

BRANDED AND ENGRAVED LEATHER KEY TAGS

\$30

\$30

VETERAN CARDS

\$10 EACH OR \$60 FOR 10

DISCOUNT BIN

This is where all my customers need to look first, before they go anywhere else.

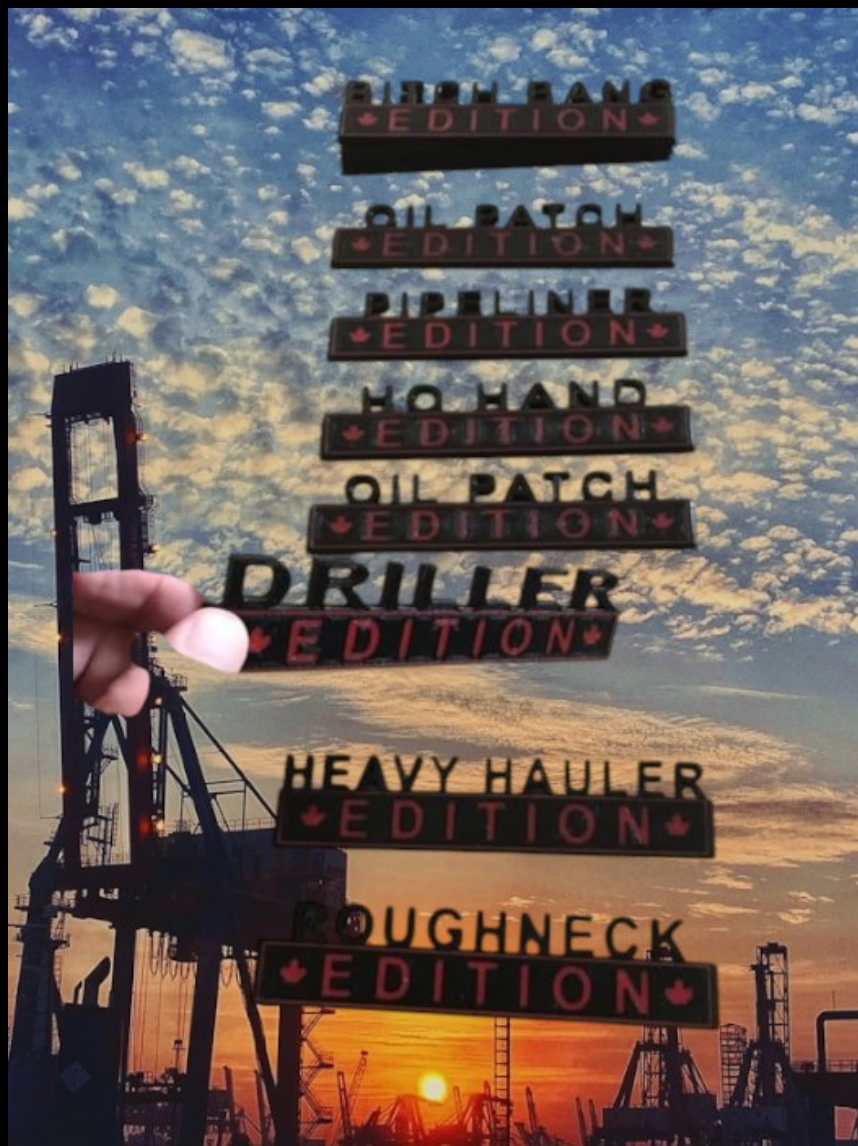

Here are things that didn't sell and or, are out of date or have been upgraded by newer products.

I also have items that I sell for less than cost whenever they don't make perfection quality yet, you wouldn't guess and, there are things that I want to get rid of as there is only so much room in my 79 Pinto to hold all this stuff and so, I finally got around to making the discount bin.

Have a look and see what I have available as everything here is marked down pretty good.

SELECT VEHICLE BADGES

SOLID BRASS DUMMY ROUNDS

\$15 each - engraving extra

BELT LINKS

STANDS

\$15

These little guys add a bit of warmth to the display scene without the cost associated with a full blown presentation box. Small and lightweight they look good and fit the larger coins that Veteran Coins is producing nowadays.

LESS THAN 100% BULLETS

Nothing wrong with them just they are not 100% and, I won't try to pass them off as 100% even though nobody is going to notice I just don't feel right about it.

I have all the sizes and types same as in the brochure above and, all can be engraved with

what you want for a bit extra so tell me what you want and how you want it.

DEMO BULLETS

These beauties were the ones I originally made to show off how good they look to garner interest for custom orders. Now they've had their day modelling in their bathing suits and being photographed it's time to sell them.

Prices below are with one side engraved. For both sides it is extra depending on design

\$50 - 50 BMG

\$40 - 338 LAPUA

\$30 - 300 WINMAG

\$25 - 7.62

SMALL SSF LAPEL PINS

\$6

SSF COIN / PIN CASE

\$15

A\$\$HOLE KEY CHAINS

\$10

NON TRADITIONAL COINS

AIRBORNE TABS

AIRBORNE TABS 2 INCHES WITH DUAL LOCKING CLUTCH

I seem to have an excess of these kicking around so what sold for \$15 now sells for \$10.

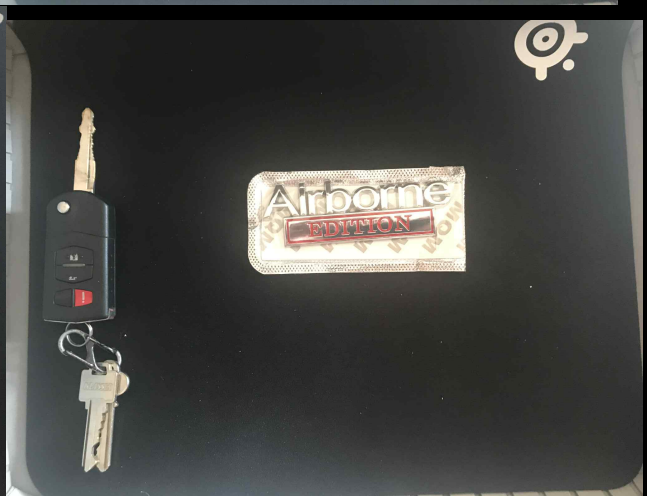

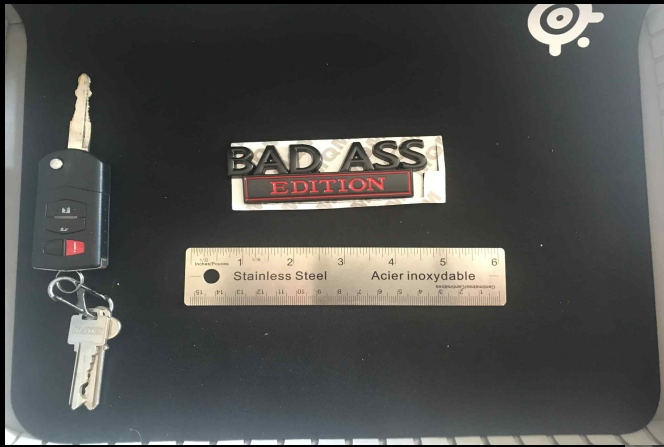

GENERIC VEHICLE BADGES

\$7

Back when I first began churning out vehicle badges I wanted to be sure I had enough to serve my customers and due to the lag in production I bought some generic one off the net just in case.

Now things are rolling along quite well I have a surplus and these are n longer needed hence they find themselves here in my Discount Bin.

Enjoy!

DECALS AND STICKERS

All female related stickers and decals half price until September 30 2025

COINS

FRENCH COIN

NON TRADITIONAL

ORIGINAL TRADITIONAL

ALL - \$30 engreaved - \$20 blank
